

Form

```
graph BT; A["RussianCosmeticApp.Forms.  
NewPhysClientForm"] --> B[Form];
```

A UML class diagram illustrating inheritance. A light gray box labeled 'Form' is at the top. A blue arrow points upwards from a dark gray box below it. The dark gray box contains the text 'RussianCosmeticApp.Forms.' on the first line and 'NewPhysClientForm' on the second line.

RussianCosmeticApp.Forms.  
NewPhysClientForm
